Corporate Sponsorship Program

<http://www.nemspa.org>

Wish you could...

- **Increase your visibility in your target marketplace and reinforce your company's name with top aviation and healthcare decision makers?**
- **Communicate directly with industry experts when you need to solve problems or develop new strategies and technologies?**
- **Be linked to an industry website that attracts hundreds of hits each week?**
- **Support the development of new recommended practices and industry standards?**
- **Demonstrate your commitment to safety and excellence?**

WHO WE ARE

The National EMS Pilots Association, NEMSPA, is one of the most active and recognizable pilot organizations in aviation today. Enjoying a rich history of innovation and excellence spanning over 23 years, NEMSPA represents both rotary wing and fixed wing pilots operating in the air medical industry throughout the world.

OUR MISSION

Help the air medical industry prosper safely and enhance the delivery of health care to everyone. Provide the leadership necessary to establish operation and safety standards, a forum for dissemination of knowledge and the guidance to formulate positive change in our profession and industry.

OUR VISION

- Continue to keep safety as our #1 priority.
- Aggressively advocate issues important to all pilots.
- Provide programs and services that improve the education and well being of pilots.
- Serve our communities.

NEMSPA is uniquely positioned to appeal to a variety of audiences. Helicopter and fixed wing vendors, aircraft manufacturers, pilots maintenance technicians, hospital leaders and administrators, educators, and public health officials all turn to NEMSPA for assistance in finding solutions to today's problems and tomorrow's challenges.

NEMSPA works closely with the FAA, DOT, NTSB, HAI, National, State & Local politicians, hospitals, health care systems, air medical providers, air medical organizations and many others to promote quality and safety in the aviation & healthcare industries.

The NEMSPA corporate sponsorship program provides opportunities for companies that provide products and services to the aviation and health care industry. Sponsorship is a way to increase your company's visibility within your targeted

communities. This is a strategic opportunity for your firm to reinforce your company name and increase your visibility with top aviation and health care decision makers. In return for your generosity as a corporate sponsor, your firm will gain national and international recognition for your commitment to safety and excellence.

Choose the annual level of commitment that best matches your company's priorities.
